THE NATIONAL BANK CIRCULATION.

WASHINGTON, D. C., June 7.—Some very interesting figures have been prepared at the office of the Comptroller of the Currency, showing various things relative to the present condition of the National bank circulation. The following table shows how the twenty-five millions, provided for in Garfield's pending bill, would be distributed on a basis of population, as under the existing law:

Virginia	$1,031,122
Missouri	1,490,000
Kentucky	1,490,000
Tennessee	1,490,000
Mississippi	1,490,000
Louisiana	1,490,000
Texas	1,490,000
Arkansas	1,490,000
Michigan	1,490,000
Florida	1,490,000
Alabama	1,490,000
Georgia	1,490,000
South Carolina	1,490,000
North Carolina	1,490,000
Pennsylvania	1,490,000
Illinois	1,490,000
Indiana	1,490,000
Ohio	1,490,000
Iowa	1,490,000
Wisconsin	1,490,000
New York	1,490,000
Minnesota	1,490,000
West Virginia	1,490,000
Kansas	1,490,000
Nebraska	1,490,000
Nevada	1,490,000
Oregon	1,490,000
California	1,490,000
Total	$25,000,000

The Comptroller goes into a long examination of this list, and further, making an estimate of the rates and terms of accounts of the government with the banks, and concludes by saying that under this proposed measure the government would pay $1,750,000 interest in gold, annually, on the 45 per cent bonds required to secure the proposed circulation, and the receipts from interest on circulation would be reduced $1,500,000 in currency, annually, when the 45 per cent bonds should be deposited. The net annual saving would be, on circulation, $1,250

THE NATIONAL GAME.

Forthcoming Matches in This City—Another Revel from Cleveland.

Games Played in the East Yesterday—The Baltimore Boys Defeated.

... be immediately fol- ... all ... withdrawal from the Erie of all factors from the Lake Shore and Michigan Southern, as well as from the Great Western and Michigan Central. Meanwhile, these stalwart strides of Vanderbilt are threatening to cut off the western connections of the Pennsylvania Central and Pittsburgh & Fort Wayne, who, rather than be severed from all connections west of Chicago, are said to stand ready to push the projected Chicago & Northern Railroad westward through Northern Illinois and Iowa to Omaha. A considerable part of the Iowa portion of this road is already constructed, and the construction of the Illinois section by a nearly air-line westward from Chicago, would open up the section of country between the "Dixon Air Line" and the "Galena Branch" of the Northwestern Railway greatly to the enrichment and advantage of this section of our State.

In spite of the great interest the West has in keeping open as many independent competing lines to the seaboard as possible, it would shed no tears over the complete triumph of Vanderbilt over Fisk and Gould. But the West would not be prepared to see with equal equanimity the conquering by Vanderbilt of Chicago and the Union Pacific Railroad, and the virtual consolidation of the entire ... rest of the ... ...
